Recommendation Letter for Berkan Yapici

To Whom It May Concern,

I am delighted to write this letter of recommendation for Mr. Berkan Yapici, a distinguished candidate for the position of Data Scientist. Having closely collaborated with Berkan during his tenure at Pricer AB, I am confident in expressing that he is not only an exceptional data scientist and engineer but also an instrumental figure as the Data & Analytics Security Officer.

Berkan's contributions at Pricer were truly outstanding, setting him apart as a standout candidate among a pool of highly qualified professionals. Despite being in the early stages of his master's degree, Berkan's passion, eloquent project presentations, and remarkable results in diverse assessments distinguished him as a top performer in his peer group.

Throughout his year at Pricer, Berkan displayed an unwavering commitment to personal and professional growth. Simultaneously managing full-time studies at KTH, he exhibited proficiency in essential programming languages such as Python and SQL. Furthermore, he mastered the use of fundamental tools and packages in data science, including but not limited to Pandas, Dask, TensorFlow, and Keras. This not only underscored his technical prowess but also highlighted his dedication to staying abreast of cutting-edge advancements in the industry.

Berkan's technical expertise extends well beyond coding. He demonstrated full proficiency in leveraging key services provided by the Google Cloud Platform, including Cloud Functions, Cloud Run, Scheduled Queries, and BigQuery. Moreover, his deep understanding of tools such as Terraform, GitHub Actions, and Docker showcased his ability to develop sustainable workflows and deploy services to production seamlessly. Berkan has also shown exceptional skills in visualizing insights for internal and external customer, thereby showing his deep understanding of the businesses we deal with.

One of Berkan's most commendable attributes is his proactive approach to problem-solving. Faced with challenges, he exhibits a remarkable ability to acquire the necessary knowledge and invest the

time needed to implement effective solutions. Berkan is a reliable team player who consistently delivers spot-on results, meticulously documented for future reference.

Berkan's dedication to excellence extends far beyond individual achievements. Actively engaging with the team, he contributes significantly to the success of his colleagues, fostering a collaborative and productive work environment. His presence at Pricer has been marked by unwavering commitment, enthusiasm, and a genuine passion for advancing the field of data science.

In conclusion, I wholeheartedly recommend Berkan Yapici for the role of Data Scientist. His unique blend of technical expertise, proactive problem-solving, and dedication to continuous improvement make him an invaluable asset to any organization. I have the utmost confidence that Berkan will excel in any endeavour he undertakes, and I am more than willing to provide additional information if needed.

Sincerely,

Serge de Gosson de Varennes
